

The Irrigation Works of India, and Their Financial Results; Being a Brief History and Description of the Irrigation Works of India, and of the Profits and Losses Which They Have Caused to the

By Robert Burton Buckley

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1880 Excerpt: .result of these arrangements has been to reduce the Muskurra at its point of contact with the masonry dam at Kulsea to a comparatively inconsiderable volume. The Jatonwala drainage has on the same principle been turned into the Nogong river. At times, the violence of a Nogong flood has been relieved by allowing a portion of its volume to pass down the canal channel towards the Muskurra. The canal is one of the most remunerative in India. It paid nearly 23 per cent. in 1878 on the capital expended upon it by the British Government. This capital, however, does not represent the full value of the works, although great alterations, re-alignments and improvements have been made, for the value of the old native works is not represented in the capital account. The cost of the works to the end of 1877-78 was two hundred and sixty-one...
