This item is printed on demand - Print on Demand Neuware - Research Paper from the year 2003 in the subject Psychology - General, grade: 1 (A), University of St. Gallen (Psychology), 13 entries in the bibliography, language: English, abstract: Since the beginning of time humans have been trying to put the world into scientific formulas. This constant search for all the coherence, which defines our reality, affects today's civilisation and its achievements essentially. But not always has science led to enlightenment of humankind. It was used repeatedly to endorse existing prejudices and malicious thoughts. At the end of the day empirical and absolutely subjective research only exist in our minds, that science is and always will be a thin line surrounded by deep abysses. This paper should be regarded as a pre-experiment serving towards the exploration of polyphony in both genders. The rise of short messaging service (SMS) enables to conduct research with modest effort. More and more one should ask what necessity an additional paper has, since this topic is already considered as well explored. Therefore it is important to emphasise that this paper is not another...
